Fahad Alasmari

Management Information Systems

qnrfahad45@gmail.com +966553416687 Saudi Arabia - Riyadh linkedin.com/in/fahad-alasmari

PROFILE

Result-oriented Management Information Systems (MIS) graduate and Data Analyst with proven experience in advanced business intelligence (Power BI), workflow automation, and workforce cost optimization. Adept at auditing complex datasets, building interactive tracking systems, and translating complex operational data into actionable strategic insights for senior management.

PROFESSIONAL EXPERIENCE

Pulse by Solution, *HR Operations Specialist & Data Analyst (Tamheer Program)* 11/2025 – 06/2026 | Riyadh

- Data Auditing & Integrity: comprehensive audits using advanced Excel to consolidate records and ensure data integrity across Oracle HCM.
- Workforce Costing & Modeling: Analyzed workforce expenses against budgets to identify cost-saving opportunities and optimize financial efficiency.
- Business Intelligence (Power BI): Developed interactive dashboards to transform complex metrics into actionable insights for executive decisions.
- Process Automation (Invoice Tracker): Created a web-based platform to automate validation workflows and minimize manual data entry errors.

EDUCATION

King Khalid University, *Bachelor of Management Information Systems (MIS)* 2020 – 2025 | Abha, Saudi Arabia
GPA: 4.48 out of 5

Graduation Project | King Khalid University, *Predicting Customer Churn in Telecom Services* 09/2024 – 01/2025 | Abha
Worked as part of a team of five members on a project aimed at predicting customer churn in telecom services. Collaboratively participated in the preparation of all project chapters, implementation, and final report submission.

CERTIFICATES

- **Data Analysis with Python** — June 2025
- **Tamheer Program | Certificate Pulse by Solution** — Nov 2025 - May 2026
- **Google Data Analytics Professional** — July 2026
- **Microsoft Power BI Data Analyst Professional** — July 2026
- **IBM Data Analyst Professional** — July 2026
- **IBM Data Science Professional** — July 2026
- **Microsoft Excel professional** — July 2026
- **Python for Everybody Specialization** — (University of Michigan) August 2026
- **Google Advanced Data Analytics Professional** — August 2026
- **Information Systems Specialist** — (University of Minnesota) August 2026
- **Microsoft SQL Server professional** — August 2026

SKILLS

- **Data Analysis & Programming:** SQL, Python, Predictive Modeling, Data Mining, Data Cleaning
- **Business Intelligence & Visualization:** Power BI, Advanced Excel, Interactive Dashboards
- **AI & Machine Learning:** Artificial Intelligence & Machine Learning concepts
- **IT & Systems:** IT, Database Administration (DBA), ERP Systems (Oracle HCM)
- **Problem Solving & Analytical Thinking**
- **ERP System**
- **Cross-Functional**
- **Communication & Presentation**
- **Time Management & Adaptability**
